

## NITROCIP

### Description

Nitrocip is a detergent made from a blend of Nitric and Phosphoric acid.

### Benefits

It is very effective at removing beer stone and scale from casks and fermentation vessels.

It can also be used as a cip detergent for the cleaning of BBT'S under pressure as it is not affected by CO<sub>2</sub>. This method can offer huge savings in CO<sub>2</sub> as tanks do not have to be vented and then purged before and after CIP.

### Application and Dosage Rates

ENSURE THAT THIS PRODUCT IS NEVER MIXED WITH ACIDS.

ENSURE THAT THIS PRODUCT DOES NOT COME INTO CONTACT WITH BRASS, ALUMINIUM, ZINC OR GALVANISED SURFACES.

REFER TO THE SAFETY DATA SHEET BEFORE USING THIS PRODUCT.

DO NOT MIX WITH CHLORINE OR CHLORINATED PRODUCTS

### BREWERY USAGE

For Descaling. Use at 4% vol / vol. Monitor the strength of the acid through the descale and add more if necessary.

Nitrocip should not be used at temperatures higher than 50 degrees C.

For use as part of CIP use at 2% vol / vol.

## PRODUCT CODE

3100

## PACKAGING

25 Litres 200 Litres 1000 Litres
